## EQUINE PROFILE

### WINTER

Breed: Appaloosa

Sex: Mare

Age: 9

Height: 15 H

Horsenality: Introvert, can be Right or Left Brain

Spirit Level: Low

Training Status: Groundwork - Beginning

Background: Winter and her half-sister were abandoned by their owner when he moved. They were 4 and 3 at the time, and had never been handled.

General Observations: Winter has an old-fashioned stocky appaloosa build and a broom tail.

Winter has come along very nicely from being completely feral and terrified of humans. She is a bit shy, but she responds well to slow, calm treatment. She has never been aggressive.

Winter would be well suited for most disciplines. She is an easy keeper.
