EQUINE PROFILE

VERA

Breed: Quarter Horse

Sex: Mare

Age: 15

Height: 14-2 H

Horsenality: Right Brain Introvert

Spirit Level: Low

Training Status: Groundwork – Beginning

Background: Vera's owner was a quarter horse breeder. The owner fell on economic hard times, and sent Vera and her yearling son, George, to a Surrender Clinic.

General Observations: Vera is very skeptical of humans. She had been used as a broodmare for years and had very little interaction with people. She was reportedly trail-ridden, but was recommended for an intermediate rider because she could be "unpredictable". We are taking it really slowly with Vera, and she is beginning to show interest and a bit of trust. With a great deal of patience and slow, careful work, we believe Vera would be a great little horse for just about any discipline. She has excellent foundation-type quarter horse conformation and is a lovely red dun.
