

## Why Rescue? *Why Now?* Why Education?

Among new horse owners, 50% give up their dream in the first 3 years - surrenders are at an all time high.

With U.S. slaughter houses closed, horses are being treated inhumanely during shipment to Canada & Mexico.

New information on equine psychology & behavior can solve problems & save lives.

## *Who are we?*

### **Spirit Horse Equine Rescue**

is a midwestern rescue with a dual mission to rescue unwanted equines & educate humans in methods of Natural Horsemanship.

### **Our plan for the future... with your help:**

- Build a state of the art facility for abused, neglected, unwanted and slaughter bound horses, ponies and other equines where rescue and education efforts consider the dignity of the animal first and foremost.
- Provide a natural, safe and comfortable living environment for residents immersed in physical, mental and emotional rehabilitation.
- Place rehabilitated horses in qualifying forever homes.
- Provide lessons in Natural Horsemanship, reducing the likelihood of an equine becoming at risk of neglect or other mismanagement.
- Increase public awareness of abandonment, neglect and abuse through outreach education.

*Spirit Horse Equine Rescue  
& Education Center*

*Our mission includes the rescue of equines & education in methods of Natural Horsemanship*
